Introduction

Introducing a programme running successfully for the past 14 years.

Yoga is a vast science. The practice of asanas, or postures, is the most commonly understood, but only one aspect of yoga.

Yoga is meant to give your life a boost, develop positive thinking, radiant health and inner peace through the practice of ancient techniques for balanced living. The yoga vacation is designed to help you develop a strong practice which can be incorporated back into your daily life at home.

Living in the ashram, following a simple, structured daily schedule, allows you to focus on yourself for one week. The term vacation usually implies doing nothing, perhaps lying on a beach. The term 'Yoga Vacation' is adopted because the structured schedule allows you to relax completely in a way a beach or travel holiday doesn't. All you have to do is be here, relax and participate.

The Yoga Vacations are designed to give ordinary people a deeper experience of this ancient science. You can view the full daily schedule of the programme below.

In the programme, you will have an opportunity to practice yoga asanas, relaxation, cleansing techniques called kriyas, pranayama, or the science of breath, and breath control, and guided meditation. In addition to this, you will have an opportunity to practice selfless service and be introduced to the yogic theory contained in the ancient scriptures.

While we all would like to arrive at the destination, we have to follow a process, and also undertake a journey before we can arrive there. For good health, or mental concentration, or a
